GREEN AUDIT

ENVIRONMENTAL AUDIT (2013-14)

The internal review of environmental management system for 2013-14 has been conducted by Environmental Cell.

S No	Element	Findings
1	Environmental Policy	The Environmental Management System has been framed for the institution. The policy aims at keeping the college campus clean, preserve the required greenery, create awareness among the students about environmental issues, reduce wastage of energy and have good housekeeping in the campus. The policy has been notified vide circular dated 22 July, 2013.
2	Energy	Energy is a crucial element. Economy in consumption of electricity is consciously followed. The electricity units consumed in 2013-14 (81,382) is lesser as compared to 2012-13 (89,021). Solar water system has been installed at Bhaikaka Hostel in 2010. The environmental policy has been communicated to the students and other stakeholders vide circular dated 22 July, 2013. It is suggested that the use of solar energy for one computer lab may be undertaken on experimental basis.
3	Environment	Many environmental issues are addressed by the college in its activities. In all such activities the students are involved, so that they develop required concern about environmental issues. Tree plantation was organized on 19 Aug, 2013. Green business fair is organized since 2010-11. During the year, Green Business fair was organized on 8 and 9 February, 2014. The activities like smart eye photography and poster making has also been organized during the year.

4	Housekeeping	The college building has been cleaned every day in the morning and evening. The toilets are cleaned everyday (six times a day). A log book has been maintained for the same. Dust bins are kept in all the class rooms and in the corridor on each floor. The students are instructed to use the dust bins with a view to keep the college building free from garbage.
5	Garden	A Garden in the Green Square and outside the college building is regularly maintained by the Estate department of Charutar Vidya Mandal.
