

-: MESSAGE :-

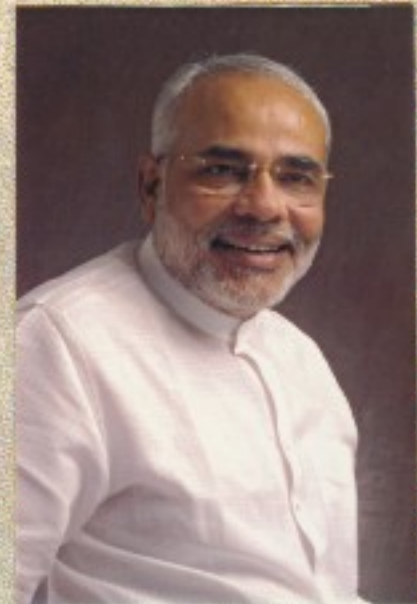

EDUCATION does not mean getting literate, or absorbing knowledge.. Education, according our 'SANSKRUTI' means grooming the student, making him understand the responsibilities and duty towards the society.

SEMCOM – the institution developed and managed by **Charutar Vidya Mandal - V.V.Nagar-** through innovation has face-lifted the concept of education and within a short span of 10 years, has become a known institution for the meaningful learnings, in the region.

I convey my heartest wishes to the institution entering the 10th years.
